

Hello

Welcome to Creating Spaces...

We decorate homes that are **uniquely yours.**

This proposal is straight to the point (like us), and outlines the process in which we work, examples of what we do and most importantly, opens the conversation between you (the client) and us (the stylists).

No questions will be left unanswered, as long as you ask it!
We are honest and real and we welcome the same from our clients!

Yours Sincerely,

How *we* work...

From one of our *valued clients...*

“We’ve had the pleasure of working with Creating Spaces on multiple homes now, and each time, she continues to exceed our expectations in every way. From the very first project, Belinda took the time to understand not only our aesthetic preferences but also how we want each space to feel. Her ability to seamlessly blend our vision with her design expertise has transformed every house into a dream home.

Belinda’s creativity, attention to detail, and dedication to perfection are unmatched. Whether it’s choosing the perfect furniture pieces, or curating the ideal colour schemes, Belinda always finds a way to make each home uniquely ours, while keeping everything functional and practical. The spaces she styles feel luxurious yet incredibly liveable—every room is thoughtfully planned and beautifully executed.

What sets Belinda apart is how she handles every aspect of the styling process. From sourcing the perfect items and overseeing the entire project, we’ve never had to worry about a thing. She manages everything with ease, making the process stress-free for us. The end result is always a home that feels fresh, inviting, and truly one-of-a-kind.
